

1.Register

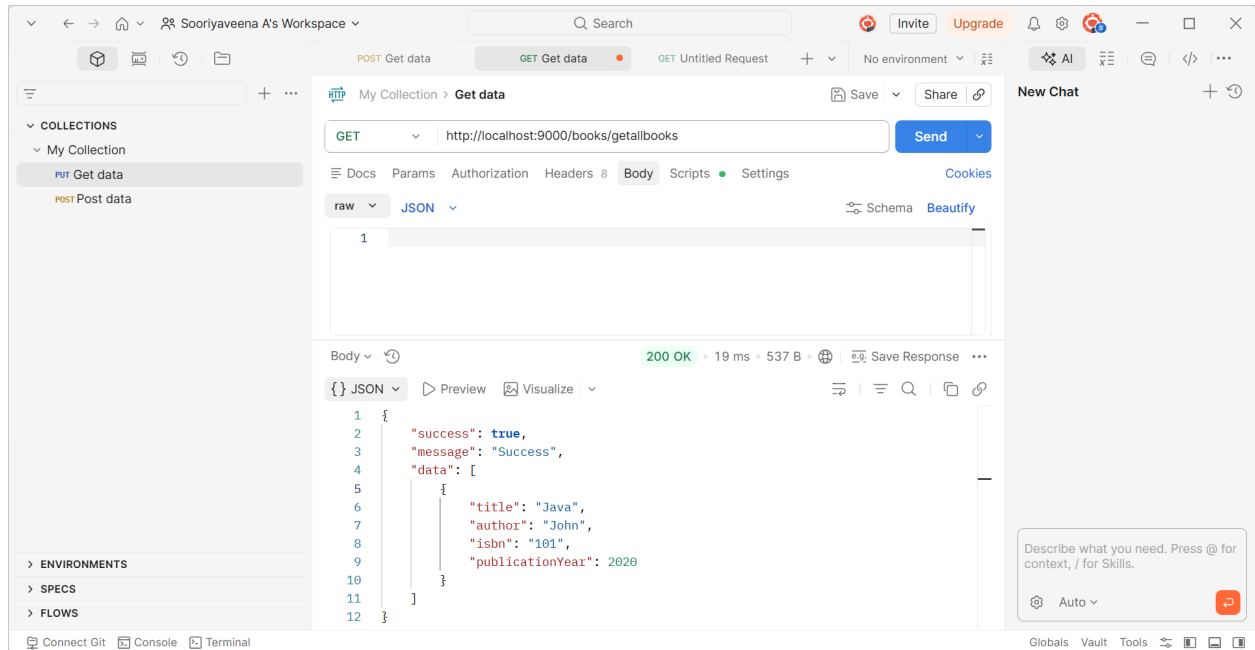

2.Login

The screenshot displays the Postman REST client interface. On the left sidebar, the 'COLLECTIONS' section is expanded, showing 'My Collection' with two items: 'PUT Get data' (selected) and 'POST Post data'. The top bar features a search icon, navigation icons, and a workspace name 'Sooriyaaveena A's Workspace'. The main workspace shows a REST client request for a PUT endpoint at 'http://localhost:9000/users/login'. The 'Headers' tab is active, showing a 'Content-Type' header set to 'application/json'. The 'Body' tab is also visible, showing a JSON body with a long alphanumeric string. The response is a 200 OK status with a response time of 74 ms. The bottom bar includes a status bar with '200 OK', '74 ms', and '621 B', along with a 'Save Response' button and a chat icon.

The screenshot shows the VS Code interface with the REST Client extension. The 'POST' request is defined with a URL 'http://localhost:9000/books/addbooks' and a JSON body. The response is shown as a 200 OK status with a JSON body containing success, message, and data fields.

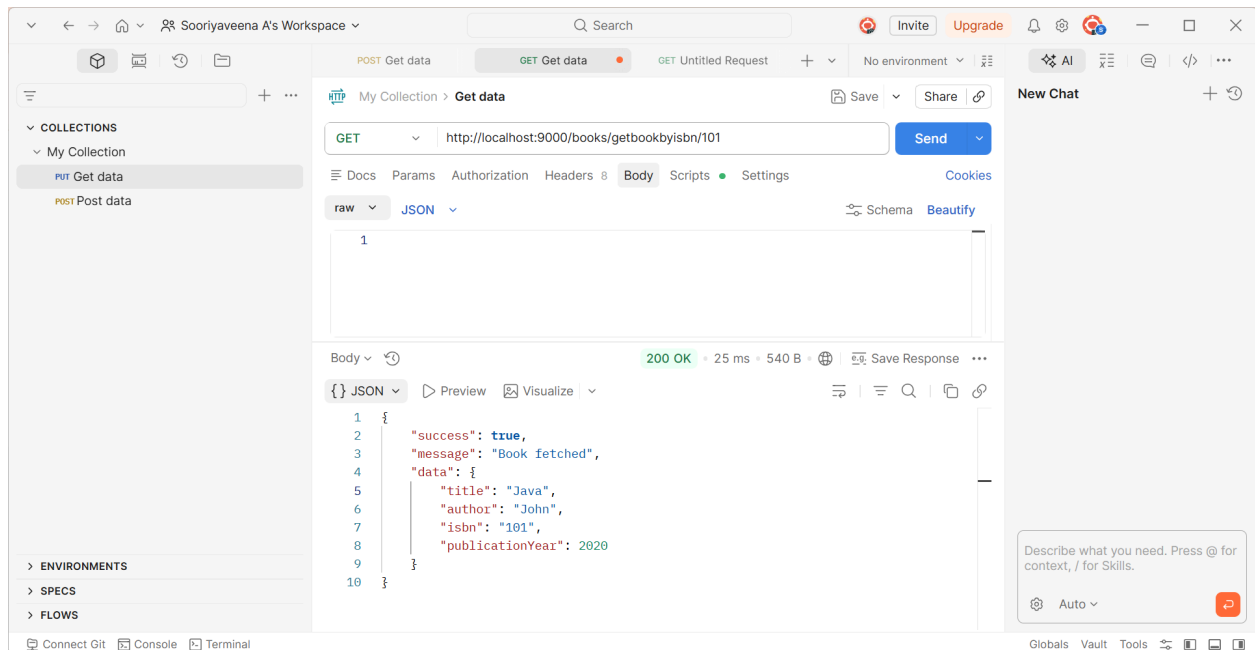

5. Get All Books

The screenshot shows the Postman interface with a workspace named "Sooriyaveena A's Workspace". The left sidebar displays a collection named "My Collection" with two requests: "PUT Get data" and "POST Post data". The main panel shows a GET request to the URL "http://localhost:9000/books/getallbooks". The response is a 200 OK status with a response time of 19 ms and a body size of 537 B. The JSON response is as follows:

```
{
  "success": true,
  "message": "Success",
  "data": [
    {
      "title": "Java",
      "author": "John",
      "isbn": "101",
      "publicationYear": 2020
    }
  ]
}
```

6. Get Book By ISBN

The screenshot shows the Postman interface with the same workspace. The left sidebar shows the "My Collection" with "PUT Get data" and "POST Post data". The main panel shows a GET request to the URL "http://localhost:9000/books/getbookbyisbn/101". The response is a 200 OK status with a response time of 25 ms and a body size of 540 B. The JSON response is as follows:

```
{
  "success": true,
  "message": "Book fetched",
  "data": {
    "title": "Java",
    "author": "John",
    "isbn": "101",
    "publicationYear": 2020
  }
}
```

7.Update Book By ISBN

The screenshot shows the Postman interface with a PUT request to `http://localhost:9000/books/updatebook/101`. The request body is a JSON object: `{ "title": "Java Spring", "author": "Jane and John", "publicationYear": 2023 }`. The response is a 200 OK status with a 54 ms response time and 556 B of data. The response body is a JSON object: `{ "success": true, "message": "Book updated", "data": { "title": "Java Spring", "author": "Jane and John", "isbn": "101", "publicationYear": 2023 } }`.

9. Mysql

The screenshot shows the MySQL Workbench interface. The SQL Editor contains the query: `select * from user;`. The Results grid displays the output of the query, showing columns: id, email, name, password, role. The data includes a user with id 101, email 'user@gmail.com', name 'Jane', password '12345', and role 'USER'.

id	email	name	password	role
101	user@gmail.com	Jane	12345	USER

The Action Output pane at the bottom shows the execution log with the following entries:

Time	Action	Message	Duration / Fetch
10 11:52:24	select * from user LIMIT 0, 1000	2 rows(s) returned	0.000 sec / 0.000 sec
11 12:03:18	drop table book;	0 row(s) affected	0.047 sec
12 12:03:21	drop table user;	0 row(s) affected	0.016 sec
13 12:12:29	select * from user LIMIT 0, 1000	1 row(s) returned	0.000 sec / 0.000 sec
14 12:29:43	select * from user LIMIT 0, 1000	0 row(s) returned	0.000 sec / 0.000 sec
15 12:45:43	select * from user LIMIT 0, 1000	1 row(s) returned	0.000 sec / 0.000 sec

The screenshot shows the MySQL Workbench interface. The SQL Editor contains the query: `select * from book;`. The Results grid is empty, indicating no rows were returned. The Action Output pane at the bottom shows the execution log with the following entries:

Time	Action	Message	Duration / Fetch
16 12:47:38	select * from book LIMIT 0, 1000	0 row(s) returned	0.000 sec / 0.000 sec
17 12:48:53	INSERT INTO book (id, title, author, publication_year, user_id) VALUES (101, 'Jane and John', 2020, NULL)	Error Code: 1054. Unknown column 'user_id' in 'field list'	0.015 sec
18 12:49:10	INSERT INTO book (id, title, author, publication_year) VALUES (101, 'Jane and John', 2020)	1 row(s) affected	0.016 sec
19 12:49:16	INSERT INTO book (id, title, author, publication_year) VALUES (101, 'Jane and John', 2020)	Error Code: 1062. Duplicate entry '101' for key 'book.PRIMARY'	0.000 sec
20 12:49:20	drop table user;	0 row(s) affected	0.047 sec
21 12:49:30	select * from book LIMIT 0, 1000	1 row(s) returned	0.000 sec / 0.000 sec
